COMPANY

About Company

Synccore delivers cloud infrastructure, offering Organizations high - performance, yet simple private cloud / Public Cloud/Backup & Offsite DR software and VDI solutions for today's demanding real-time web and mobile applications.

Insightful

Our team has seen firsthand how providing expert, proactive and timely advice can impact your business. It's our duty to deliver that each day-better than anyone else in our industry.

It's Not Just About Technology

We believe that the way a company delivers a service is just as important as the service itself. We won't just be another vendor to you; we strive to become an Integrated, true extension of your team.

Understanding

We must have complete awareness of your goals, objectives, interests and preferences to help create the best solution possible.
